All tools shown in this catalog are manufactured in strict accordance with Challenger's single purpose — *to put into your hands fine precision tools at low cost.* Testifying to how amply this aim is fulfilled, millions of Challenger Tools are used every day by exacting mechanics in almost every phase of modern industry, service and repair . . . as well as by home owners, farmers and anyone who demands accurate, efficient, long-life performance. It is this huge nation-wide acceptance which enables Challenger to excel in streamlined precision-production methods . . . and the resulting savings are transferred to you every time you buy a Challenger Tool.

DESIGNED TO PERFORM Years of experience, plus continuous on-the-job testing of tools in actual service, gives Challenger's engineering staff "know how" second to none. Examine the streamlined construction and up-to-the-minute features of any Challenger Tool, then try its proved performance. *The engineering superiority is immediately apparent.*

TOOL BODIES ARE FINE QUALITY ALLOYS AND SELECTED STEELS Challenger's advanced metallurgy assures you of tools with rugged "built-in"strength to deliver long service and withstand powerful strains. Choice of metal, hot-forging, hot-broaching, heat-treating and tempering for toughest grain structure are all scientifically-controlled for the use requirements of each tool.

PRECISION MADE Like Challenger's metallurgy, rigid standards also govern every step of manufacture to provide you with tools of absolute precision accuracy . . . as fine as experienced craftsmen and modern machines can produce.

SUPERBLY FINISHED Beautiful, enduring finish (correct for service requirements) is the final feature which makes Challenger in every respect tools you will always be proud to own and use.

challenger

GUARANTEE

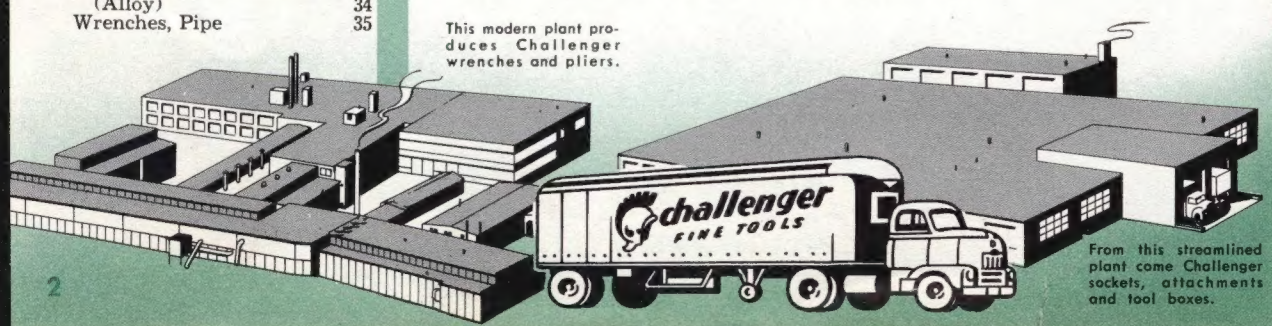
All Challenger Tools are fully Guaranteed against defects in material and workmanship. WE WILL REPLACE OR REPAIR AT NO CHARGE ANY CHALLENGER TOOL, RETURNED PREPAID TO FACTORY, WHICH WHEN RECEIVED AND EXAMINED AT THE FACTORY, SHOWS DEFECTS EITHER IN WORKMANSHIP OR MATERIALS . . . *the only exception being that, in all fairness, tools which show obvious misuse or abuse, or are worn out from use, will not be replaced.*

R. J. Morris

President, PENENS CORPORATION

CHALLENGER TOOLS ARE NATIONALLY ADVERTISED in leading publications. For jobbers and dealers—merchandising helps such as mats, cuts, consumer leaflets, window streamers, catalog pages, broadsides, etc. are available. Write Penens Corp., Dept. C, Schiller Park, Illinois.

This modern plant produces Challenger wrenches and pliers.



From this streamlined plant come Challenger sockets, attachments and tool boxes.

SOCKETS, HANDLES and ATTACHMENTS

1/4"

These "Midget Size" 1/4" Square Drive Sockets and Attachments are indispensible for small nut turning in automotive, appliance, motor, radio, aircraft and electrical work. Scientifically heat-treated Alloy Steel is used throughout for tool bodies. Sockets are thin-wall for close work . . . hot-broached for extra toughness . . . precision machined . . . finished in mirror chrome. Handles and Attachments are hot-forged . . . lightweight and streamlined for fastest, easiest performance . . mirror chrome plated.

1280	3/8"	1 3/4	6

ADAPTERS

Adapts 1/2" Dr. Attachments to 3/8" Dr. Sockets (1254) or 1/4" Dr. Attachments to 3/8" Dr. Sockets (1279).

Tool No.	Length	Wt. Ea. Oz.	Std. Pkg.
1254	1/2" F, 3/8" M.	3	3
1279	1/4" F, 3/8" M.	2	6

RATCHETS, HANDLES AND ATTACHMENTS

Here is a selection of Ratchets, Handles and Attachments that provides all-around adaptability for 3/8" socket assemblies. Designs incorporate finest features and advantages of modern tool craftsmanship . . . are lightweight, scientifically balanced and streamlined for peak efficiency, for easiest performance. Tool bodies are made of Special Alloy Steel to assure both long service and maximum strength under severest service conditions. Handles are hot-forged and hot-riveted . . . all tools are chrome plated to resist rust, corrosion and wear. Factory Guarantee fully covers quality and workmanship.

REVERSIBLE RATCHETS

Both Round Head (1260) forged in one piece with handle, in mirror chrome . . . and "Tear Drop" Head (1261) in mirror chrome. Fast smooth action, instant reverse.

Tool No.	Description	Length	Wt. Ea. Oz.	Std. Pkg.
1260	Round Head	7 1/2"	8 3/4	6
1261	Oval Head	7"	9 1/4	6

SPEEDER HANDLE

Speeds up work . . . spins nuts on and off *fast*. Mirror chrome finish.

Tool No.	Length	Wt. Ea. Oz.	Std. Pkg.
1275	16"	12 3/4	6

EXTENSIONS

Give longer reach, make jobs easier. Finished in mirror chrome.

Tool No.	Length	Wt. Ea. Oz.	Std. Pkg.
1265	3 1/2"	2 1/4	6
1266	6"	3 1/4	6
1268	12"	6	6

FLEX HANDLE

Works at any required angle; ball and spring holds hinged plug firmly in position. Mirror chrome finish.

Tool No.	Length	Wt. Ea. Oz.	Std. Pkg.
1270	10"	7	6

CROSS BAR

Use with Flex Handle to form tee or ell. Mirror chrome plated.

Tool No.	Opening Size	Wt. Ea. Oz.	Std. Pkg.
1271	6"	2	6

SLIDE BAR

Use both as tee or ell handle. Sliding head held in position on bar by spring-ball tension. Mirror chrome plated.

Tool No.	Length	Wt. Ea. Oz.	Std. Pkg.
1278	7"	5	6

RATCHET REPAIR KITS

Replacement parts available for both Round Head and Oval Head Ratchets. See Price List.

THIN WALL ALLOY SOCKETS

1/2" Square Drive Sockets are the most essential tools for nut turning because they cover the greatest variety of jobs in homes, on farms, and in automotive, aircraft and industrial fields. Forged from Special Alloy Steel, these sockets are also hot-broached and machined to precision size for accurate, non-slip fit. All are thin-wall design for working in tightest places where ordinary sockets cannot perform. Mirror chrome plating preserves original lustre against oil, water and acids . . . wipes clean instantly.

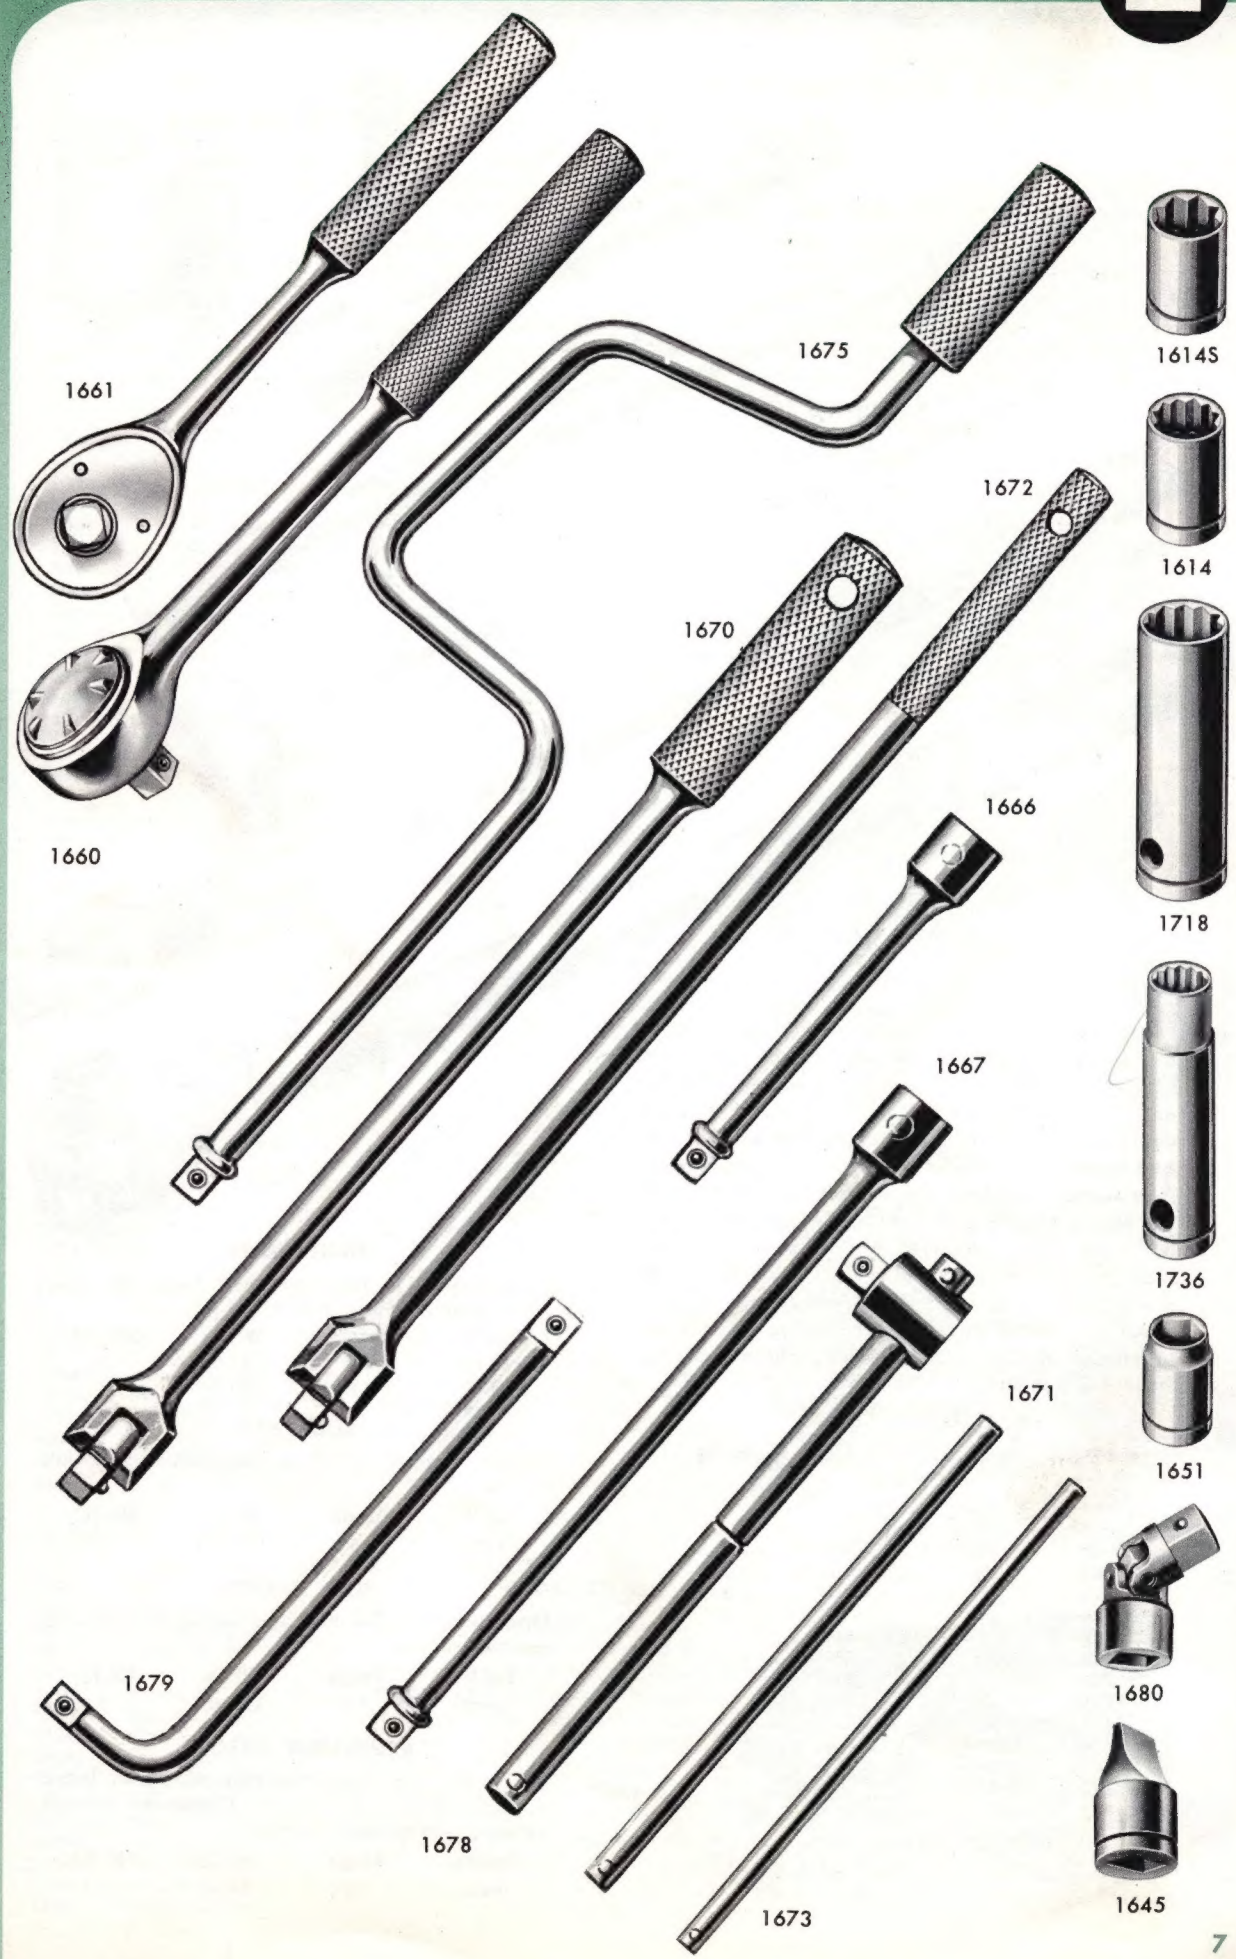
1673	8"	3½	6

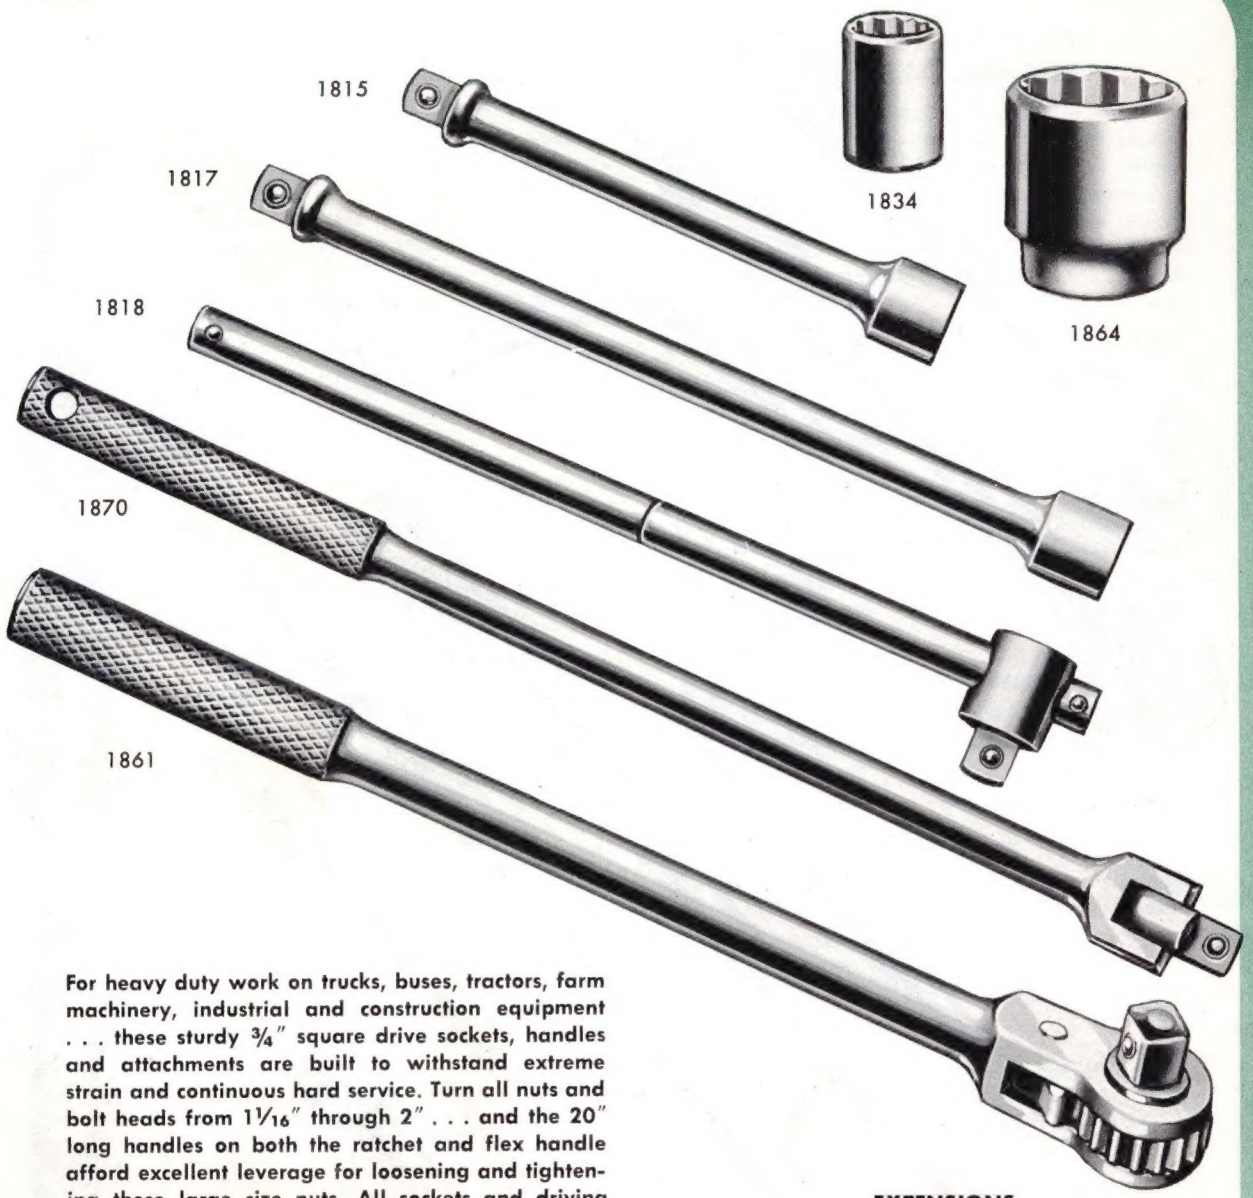
RATCHET REPAIR KIT

Replacement parts are available for both Round Head and Oval Head Ratchets. See Price List.

SOCKETS, HANDLES and ATTACHMENTS

½″





For heavy duty work on trucks, buses, tractors, farm machinery, industrial and construction equipment . . . these sturdy 3/4" square drive sockets, handles and attachments are built to withstand extreme strain and continuous hard service. Turn all nuts and bolt heads from 1 1/16" through 2" . . . and the 20" long handles on both the ratchet and flex handle afford excellent leverage for loosening and tightening these large size nuts. All sockets and driving tools are hot-forged from Special Alloy Steel and are finished with the same precision manufacture used on smaller drives. Heat-treating adds extra toughness and each item is fully chrome plated. Factory Guaranteed.

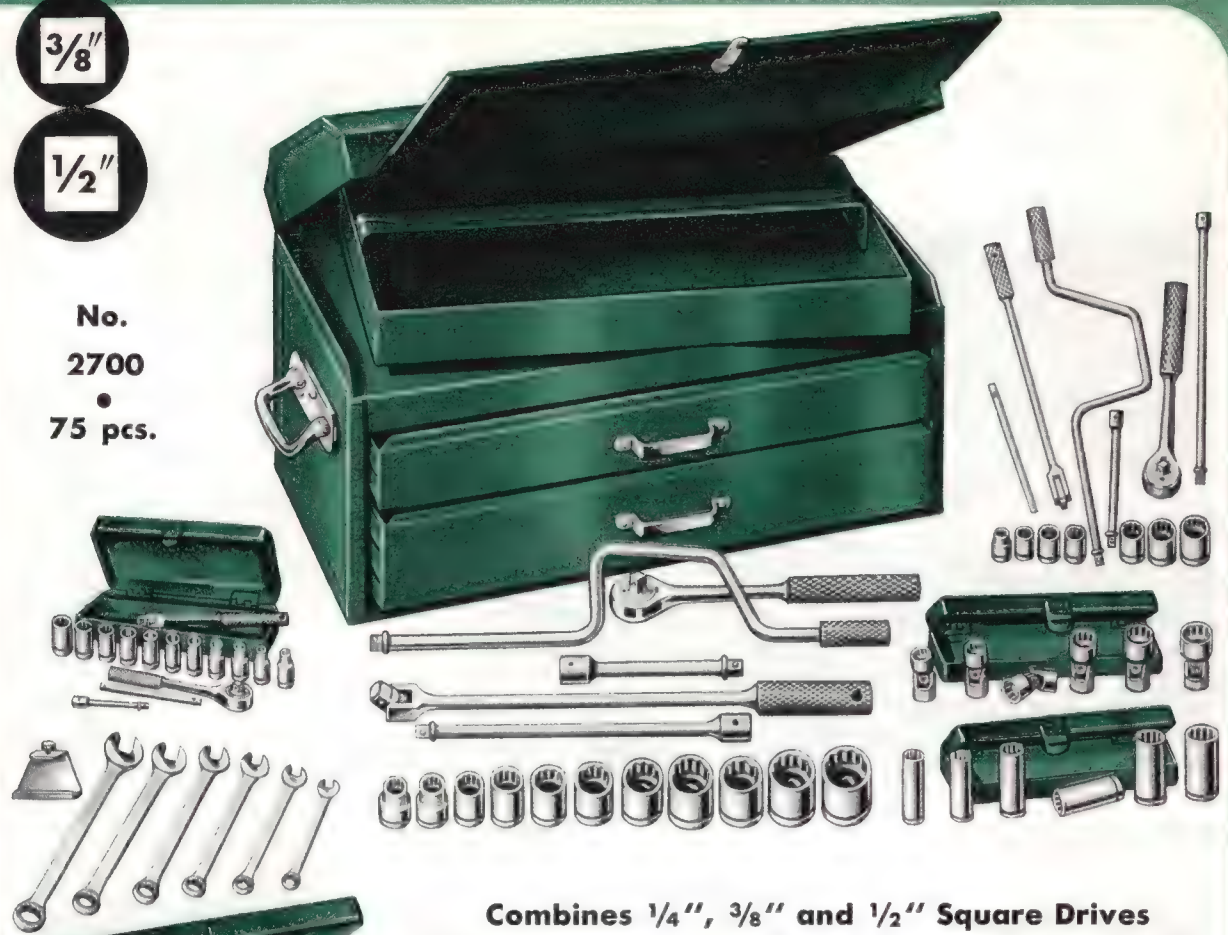
TOOL SET

1/4" 3/8" 1/2"

No. 2700 • 75 pcs.



Combines 1/4", 3/8" and 1/2" Square Drives

Has all popular styles and sizes of alloy sockets and driving tools—and 6 alloy combination wrenches, too. Moreover the 3/8" drive items not only come with regular sockets and attachments . . . they also include 6 universal sockets . . . and 6 deep sockets. The 1/2" drive group, too, includes a set of 8 larger deep sockets . . . together with standard tools for general all-around nut turning. "Midget size" 1/4" drive items handle smallest jobs. Miniature tool boxes hold the two ranges of deep sockets, the universal sockets and the 1/4" drive items in separate sets. Handsome all-steel tool chest with two drawers and handy tote-tray completes this fine assortment.

TOOL SET

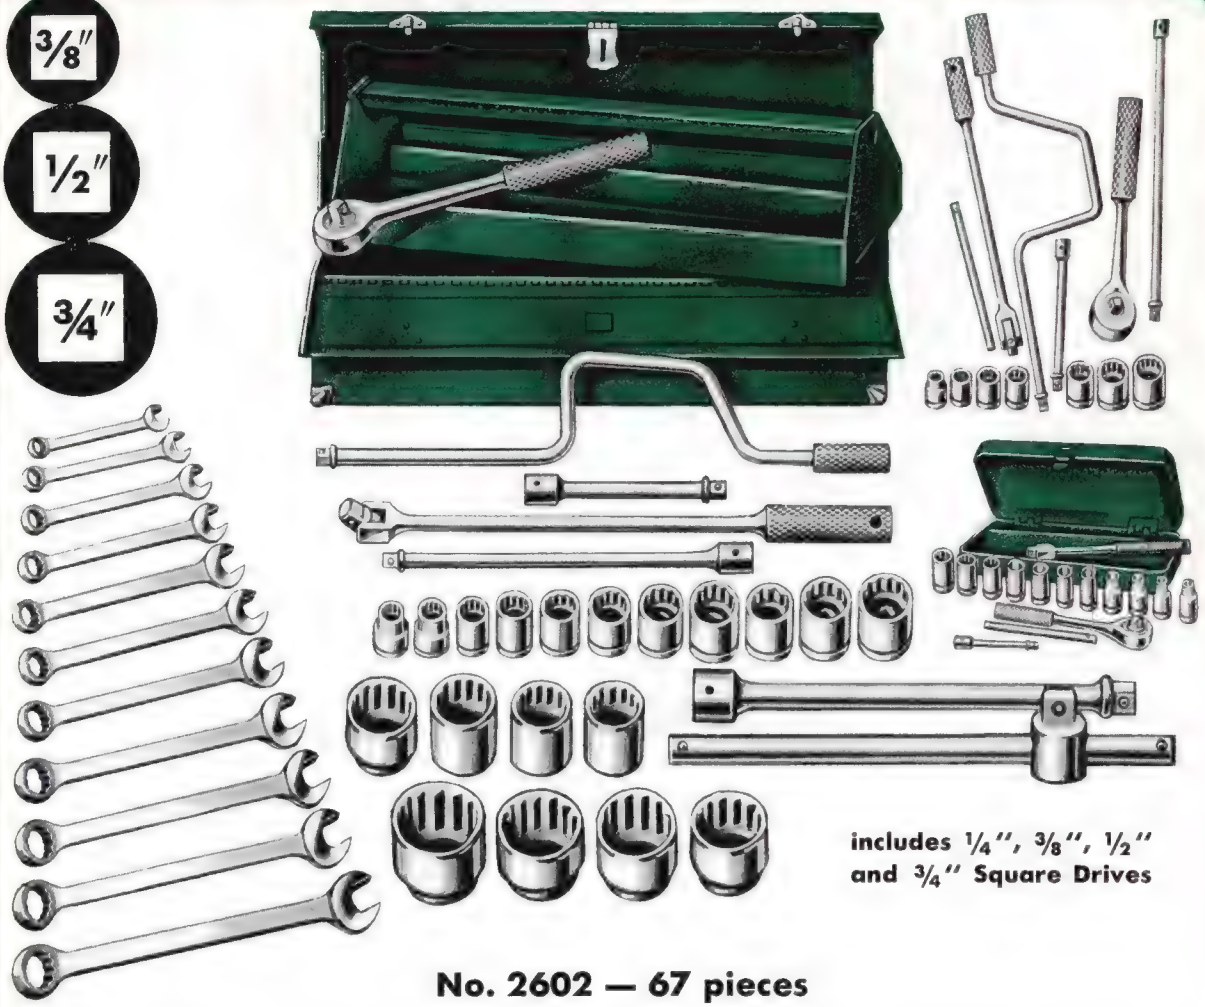
1/4" 3/8" 1/2" 3/4"



includes 1/4", 3/8", 1/2" and 3/4" Square Drives

No. 2602 — 67 pieces

All four square drives are covered by this master tool set . . . 1/4", 3/8", 1/2", 3/4". And 37 thin-wall sockets (ranging from 7/32" to 1 3/4") do nut turning from finest, smallest jobs through rugged heavy-duty work on big machinery and equipment. In addition, 11 combination box and end wrenches are included in graduated sizes from 3/8" to 1". Assortments of handles and attachments for each drive assure maximum efficiency, speedier performance with less effort. All items are hot-forged from fine alloy steel, heat-treated for individual service requirements, and precision-machined for absolute accuracy. Small tool box holds 1/4" drive sockets and attachments. Complete set is shipped in all-steel hip-roof tool box, finished in high-gloss hammerloid, with labor-saving tote-tray.

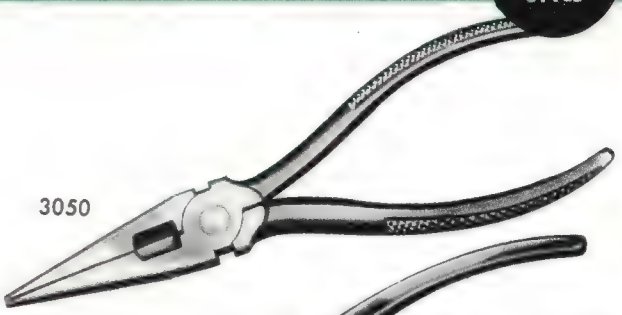
PLIERS

SOLID JOINT STYLE

CHAIN NEEDLE NOSE

Preferred for electrical and fine mechanical work . . . long tapered nose fits into places impossible for other pliers. Precision fitted joint keeps edges aligned. Made of heat-treated alloy steel, with cutting edges induction hardened. Polished head.

Tool No.	Size	Wt. Ea. Oz.	Std. Pkg.
3050	7″	3	1



TELEPHONE-TELEVISION

Specially designed for handling difficult wiring on television, radio and telephones. Shear-type cutter with edges induction hardened. Alloy steel; polished head.

Tool No.	Size	Wt. Ea. Oz.	Std. Pkg.
3070	6″	3½	1

BATTERY

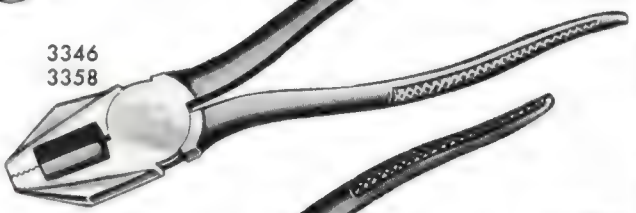
Easily turns even tightest-corroded terminal nuts. Solid-grip 30° angle jaws . . . . solid joint. Made of alloy steel, semi-polish finish with ground flats.

Tool No.	Size	Wt. Ea. Oz.	Std. Pkg.
3318	8″	8	12

LINESMAN'S POLISHED HEAD

For general wiring. Conform to Utility Co. standards. Strong grip. Alloy steel body; induction hardened cutters; polished head.

Tool No.	Size	Wt. Ea. Oz.	Std. Pkg.
3346	6″	6½	1
3358	8″	13	1



NEW ENGLAND LINEMAN'S

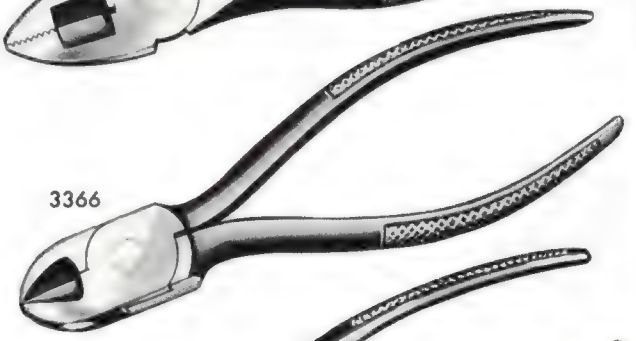
Slim nose for greater access to work. Made to Utility Co. standards. All-alloy steel; induction hardened cutter; polished head.

Tool No.	Size	Wt. Ea. Oz.	Std. Pkg.
3347	7″	10½	1

DIAGONAL CUTTER 6″

For close cutting work. Powerful leverage and induction-hardened cutting edges. Alloy steel throughout; polished head.

Tool No.	Size	Wt. Ea. Oz.	Std. Pkg.
3366	6″	5	1



DIAGONAL CUTTER 7″

Box joint is close to short jaw, also longer handles, for maximum cutting power. Alloy steel; hardened cutter edges; polished head.

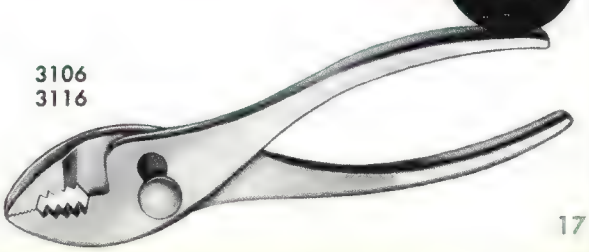
Tool No.	Size	Wt. Ea. Oz.	Std. Pkg.
3377	7″	8	1

SPECIALTY PLIERS

SPECIALTY PLIERS

Popular low-cost combination pliers for general use—in cadmium or black finish. 2 adj. slip joints . . . deep gripper teeth . . . shear type cutter. Forged from long-life alloy steel, heat-treated.

Tool No.	Size	Capacity	Wt. Ea. Oz.	Std. Pkg.
		CADMIUM FINISH		
3106	6″	1″	8	12
		BLACK FINISH		
3116	6″	1″	8	12



COMBINATION PLIERS

SLIP JOINT PLIERS

These all-around utility pliers are forged from fine alloy steel, heat treated and accurately machined. Choice of 4 sizes and 3 chrome finishes. Slip joint has two adjustments . . . deep teeth grip firmly . . . shear-type cutter performs with sharp, clean action.

Tool No.	Size	Capacity	Wt. Ea.	Std. Pkg.
	BRIGHT CHROME FINISH			
3105	5″	¾″	4 oz.	12
3126	6″	1″	8 oz.	12

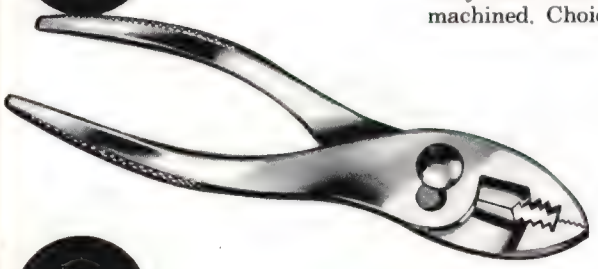
3136	6″	1″	8 oz.	12
3158	8″	1¼″	10 oz.	12
3170	10″	1½″	16 oz.	6

THIN NOSE PLIERS

The thin nose permits work in tight places where standard pliers cannot be used. Slip joint has two adjustments . . . cutter is shear type . . . and teeth are deep cut for sure grip. Made of alloy steel in 2 sizes with choice of three chrome finishes.

Tool No.	Size	Capacity	Wt. Ea.	Std. Pkg.
	FULL POLISH CHROME FINISH			
3546	6″	1″	6 oz.	12
	BRIGHT CHROME FINISH			
3225	5″	¾″	4 oz.	12
3246	6″	1″	6 oz.	12
	SATIN CHROME FINISH			
3235	5″	¾″	4 oz.	12
3256	6″	1″	6 oz.	12

SIDE CUTTING PLIERS



Has all the advantages of regular combination pliers . . . but is made with side cutter which most easily clips off wire and ordinary nails. Plier body is forged from alloy steel, heat-treated and machined. Choice of three chrome finishes.

Tool No.	Size	Capacity	Wt. Ea.	Std. Pkg.
	FULL POLISH CHROME FINISH			
3586	6″	1″	8 oz.	12
	BRIGHT CHROME FINISH			
3186	6″	1″	8 oz.	12
	SATIN CHROME FINISH			
3196	6″	1″	8 oz.	12

UNIVERSAL PLIERS

One jaw is curved for gripping round or odd shaped objects . . . the other straight jaw has a groove for solid grip on wire, nails and pins. Slip joint is 2-adjustment style, cutter is shear type. Alloy steel throughout, heat treated, and finished in bright or satin chrome.

Tool No.	Size	Capacity	Wt. Ea.	Std. Pkg.
	BRIGHT CHROME FINISH			
3267	7″	1″	9 oz.	12
	SATIN CHROME FINISH			
3277	7″	1″	9 oz.	12

THIN BENT JAW PLIERS

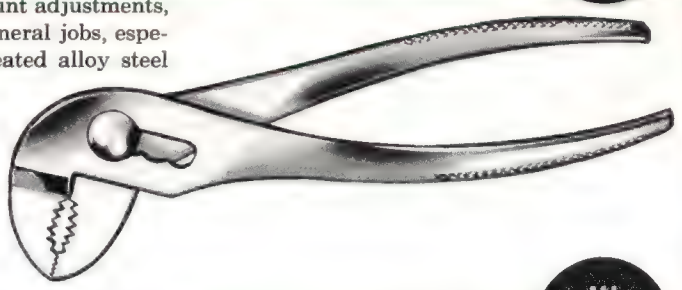
Thin jaws are bent upward 30° for ease in pulling nails and for working at angles on hard-to-reach jobs. Has two slip joint adjustments and shear type cutter. Forged from durable alloy steel which is heat treated for added strength. Satin or bright chrome finish.

Tool No.	Size	Capacity	Wt. Ea.	Std. Pkg.
	BRIGHT CHROME FINISH			
3207	7″	1½″	7 oz.	12
	SATIN CHROME FINISH			
3217	7″	1½″	7 oz.	12

PLIERS

PLIER WRENCH

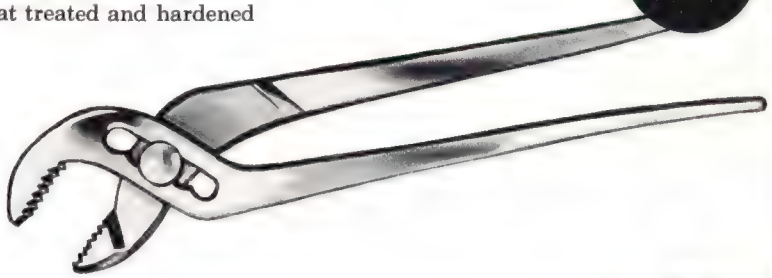
Strong gripping power and leverage, plus 4 slip joint adjustments, make this plier a valuable tool for hundreds of general jobs, especially when working on pipe or tubing. Heat-treated alloy steel assures rugged strength. Choice of finishes.



Tool No.	Size	Capacity	Wt. Ea.	Std. Pkg.
	BRIGHT CHROME FINISH			
3287	7½"	1½"	10 oz.	12
	SATIN CHROME FINISH			
3297	7½"	1½"	10 oz.	12

ALL PURPOSE PLIERS

Five size adjustments enable increased range of work with these slip joint pliers . . . and their unusual length (9½") affords greater leverage. Built to stand heavy strains, heat treated and hardened alloy steel. Two finishes.



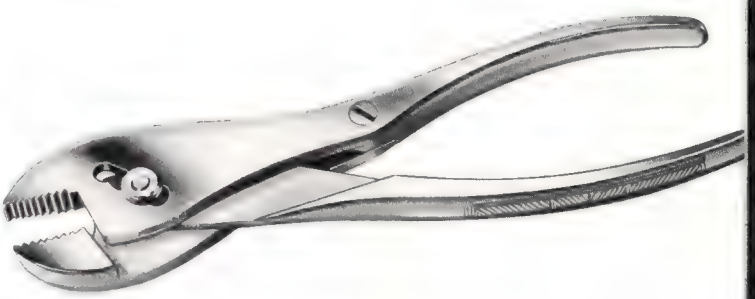
Tool No.	Size	Capacity	Wt. Ea.	Std. Pkg.
	BRIGHT CHROME FINISH			
3339	9½"	1¾"	9 oz.	12
	FULL POLISH CHROME FINISH			
3539	9½"	1¾"	9 oz.	12

LEVERAGE PLIERS

This new style plier far surpasses previous gripping performance. *Revolutionary three piece compound-leverage design multiplies pressure applied on handles by ten times.*

Because of its tremendous grip, this versatile plier has almost endless applications for anyone who uses tools . . . from home owner and farmer to the master mechanic.

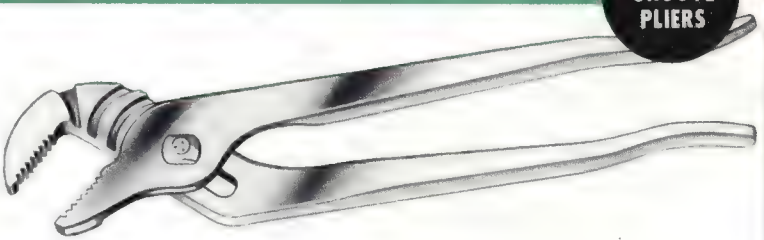
The deeply milled non-slip jaws open to 1¼". Uniquely designed four-position slot enables closer and easier jaw adjustments and at the same time reduces wedge action and wear. Long life materials (specially hardened alloy steels throughout) assures ability to take rugged service . . . and fine machining and workmanship mean fast, positive action. Finished in bright chrome. *Fully patented . . . there is no other plier on the market today like this product.*



Tool No.	Size	Capacity	Wt. Ea.	Std. Pkg.
3234	8"	1¼"	8 oz.	1

MULTI-GROOVE PLIERS

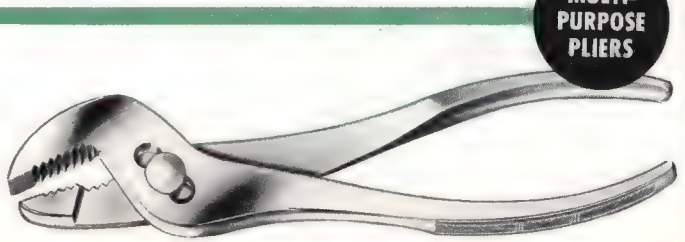
Curved interlocking grooves at the joint of this plier securely hold the jaws in any position desired. Relieves arm fatigue for the operator and also takes strain off the plier bolt. Five adjustments up to 1¾" capacity handle an exceedingly wide range of work. Made for heavy-duty service from forged alloy steel, heat treated, and finished in acid and oil resistant chrome.



Tool No.	Size	Capacity	Wt. Ea.	Std. Pkg.
3243	9½"	1¾"	12 oz.	1

MULTI-PURPOSE PLIERS

Special 20° offset nose grips objects in front of center of these multi-purpose pliers for better leverage and easier turning. Three jaw-opening adjustments . . . deeply milled teeth for positive grip, oil tempered to retain their sharpness. Entire plier is hot-forged, alloy steel, finished in all-over chrome plate.



Tool No.	Size	Capacity	Wt. Ea.	Std. Pkg.
3239	8"	1¾"	9 oz.	6

ALLOY STEEL WRENCHES

Built-in quality is immediately apparent in every detail of these finest mechanics' grade wrenches. Designs are the last word in modern streamlining to achieve lightest practical weight with perfect balance and "feel". Bodies are hot-forged from best alloy steel, then tempered for long life and ability to take the unusual leverage and strains of heavy duty service. Wrench ends are precision-machined to assure absolutely accurate size . . . and all-over Rotary-Polish Chrome Plate forms a durable protective coat against oil, acid, rust and corrosion.

ALLOY STEEL OPEN END WRENCHES

SELECT STEEL WRENCHES

Outstanding value characterizes this highly popular line of wrenches. Priced exceptionally low . . . yet sound, up-to-the-minute design, sturdy construction and accurate machining assure long and satisfactory service. Each wrench body is hot-forged from select steel, also scientifically oil-tempered for still greater strength to endure extreme tension, leverage and wear. Heavy chrome plating completes the manufacturing process to make these wrenches in every respect both fine performers and values without equal.

SELECT STEEL OPEN END WRENCH SETS

SELECT STEEL OPEN END WRENCH SETS

The five and six piece open end wrench sets illustrated here and on the next page offer extraordinary quality and service at economy prices. All the wrenches are streamlined and balanced for ease in handling, are precision-machined for accurate fit, and have narrow heads for close tolerance jobs. They are handsome tools, too, fully finished in chrome—high polish on heads and satin finish on bodies. The various size ranges furnished in handy storage clips (6-piece large range also in sturdy Plastic "Roll-Up" Kit) meet all general working needs.

SELECT STEEL COMBINATION WRENCH SETS

SELECT STEEL COMBINATION WRENCH SETS

Large volume demand explains the surprisingly low cost of these hot-forged, oil-tempered and precision-machined double duty wrenches. Box ends are for tightening or loosening nuts . . . open ends for fast turning. Absolute size accuracy is assured by hot-broaching of box ends and careful milling of open ends. Further, box ends are thin-wall and open ends are narrow to handle modern, close tolerance work. All wrench bodies are satin chrome plated; ends are high polish chrome. Choice of 5 or 6 piece sets in metal clips, or 6 piece set in "Roll-Up" Kit.

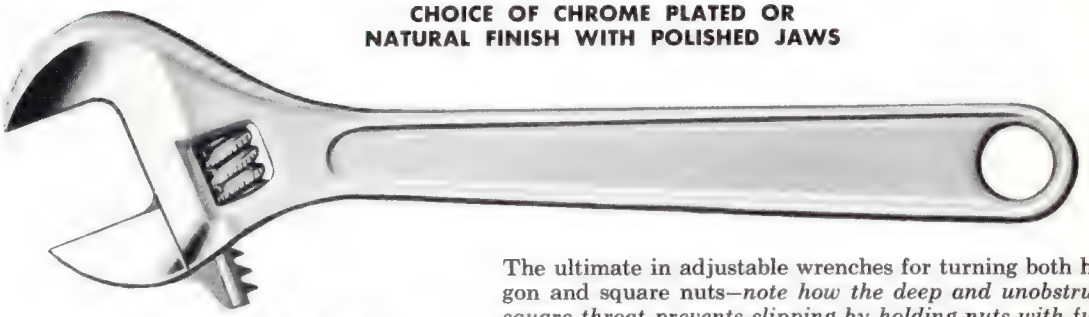
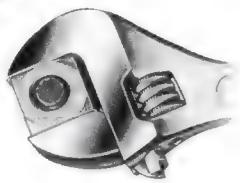
FINEST QUALITY ALLOY ADJUSTABLE WRENCHES

CHOICE OF CHROME PLATED OR NATURAL FINISH WITH POLISHED JAWS





DEEP "FULL-BITE" THROAT COVERS ENTIRE NUT

The ultimate in adjustable wrenches for turning both hexagon and square nuts—*note how the deep and unobstructed square throat prevents slipping by holding nuts with fullest and firmest "bite" (see illustration, left).* And these wrenches are easier to handle, too, because of balanced, lightweight construction. The precision-mesh teeth of the adjustment screw run velvet-smooth, hold adjustments firmly, withstand extreme pressure. Tough alloy steel used throughout, with stress points oil tempered, provides double the usual strength. Choice of finishes.

REPAIR KIT FOR ADJUSTABLE WRENCHES. Replacement parts—movable jaw, knurl, pin and spring—available for all sizes in both finishes. See price list.

"GRAB-ALL" TOOLS

- Picks up objects in ordinarily inaccessible places
- Flexible shaft permits bending around obstructions

This novel tool has unlimited use for everyone . . . mechanics, electrical workers, repairmen, plumbers and home owners as well. *Grab-all* consists of a slim flexible shaft with a spring operated button at one end and four spring-steel "fingers" held under tension at the other end. Simply press the button and the metal "fingers" firmly grab the desired object. Non-magnetic in principle so metal will not cling to it . . . and because of the flexible shaft, *Grab-all* can reach into blind spots. Rust resistant finish.

EXTRA RUGGED—EXTRA STRONG
PIPE WRENCHES

As powerful, as rugged and as efficient as they look . . . each of these extra-strong pipe wrenches is built to take hard, long, punishing use. Bodies and heads are hot-forged from special analysis steel, heat-treated. Handles are I-beam construction for greatest strength with least weight. Deeply-milled jaw teeth grip with solid "bite", are scientifically hardened for extra-long-life. Adjusting nuts have rounded and burr-free inside threads for smoothest operation. Choice of standard Stillson or Heavy-duty Patterns in big range of sizes.

STILLSON PATTERN

Far exceed Government Specifications for normal duty—also they are the only wrenches with frame finely-machine-ground to perfect flatness; and top jaws finished in same manner on top, sides and front.

Tool No.	Size	Capacity	Wt. Ea.	Std. Pkg.
4106	6″	½″	5 oz.	1
4108	8″	¾″	11 oz.	1
4110	10″	1″	1 lb. 8 oz.	1
4114	14″	1½″	2 lbs. 10 oz.	1
4118	18″	2″	4 lbs.	1
4124	24″	2½″	7 lbs. 4 oz.	1

HEAVY DUTY

Brutes for strength—engineered to tackle the roughest jobs. Heavier construction throughout than standard Stillson pattern, yet proper weight distribution eases work, minimizes fatigue.

Tool No.	Size	Capacity	Wt. Ea.	Std. Pkg.
4406	6″	¾″	7 oz.	1
4408	8″	1″	11 oz.	1
4410	10″	1½″	1½ lbs.	1

4418	18″	2½″	5 lbs. 12 oz.	1
4424	24″	3″	9 lbs. 6 oz.	1

CHROME PLATED STILLSON PATTERN

New . . . exclusive! Have all top-quality features of Stillson patterns above, PLUS corrosion-resistant chrome plated bodies.

Tool No.	Size	Capacity	Wt. Ea.	Std. Pkg.
4308	8″	¾″	11 oz.	1
4310	10″	1″	1 lb. 8 oz.	1
4314	14″	1½″	2 lbs. 10 oz.	1

REPAIR PARTS FOR PIPE WRENCHES. Replacement parts are available for all pipe wrenches listed above. See price list.

No. 4100
STILLSON PATTERN PIPE WRENCHES in "ROLL-UP" KIT

For general work . . . includes 8″, 10″ and 14″ Stillson pattern wrenches, described above, which will efficiently handle pipes, tubing, etc. up to 1½″ diameter. Handy Plastic "Roll-Up" Kit for storage.

Tool No.	Size	Capacity
4108	8″	¾″
4110	10″	1″
4114	14″	1½″

Shpg. Wt. 5 lbs. Std. Pkg. 1

ALLOY PUNCHES

Solid alloy, hardened and tempered to withstand powerful blows and side pulls, forms the bodies of these mechanics' grade punches. Made for heavy-duty service, with chamferred butts to prevent splitting. Stocks are square for firm grip.

Full chrome plating, satin on stocks and high polish on tapers, protects against acid and corrosion . . . and provides a beautiful finish worthy of these fine quality tools.

PIN PUNCHES

A necessity for automotive, shafting and general machinery work . . . designed for drifting out all kinds of keys and sheared-off bolts. Five sizes for every need.

Tool No.	Length	Sq. Stock	Pt. Diam.	Shpg. Wt.	Std. Pkg.
61	4 3/8"	1/4"	3/32"	1 oz.	6
62	4 7/8"	1/4"	1/8"	1 oz.	6

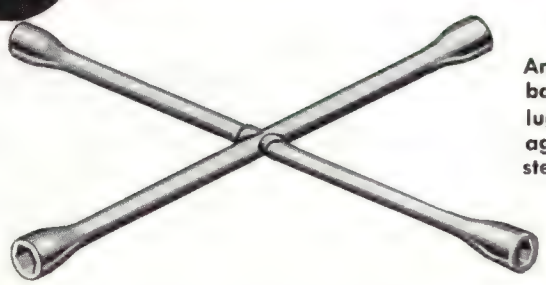
AUTO WHEEL LUG WRENCHES



AUTO WHEEL LUG WRENCHES

Ample leverage for freeing wheel nuts easily, also correct balance to spin them off. Openings cover all popular lug nuts. 3 lengths—14" (general use), 16" (extra leverage), 20" (for deep or skirted fenders). Rugged selected steel; hot-forged sockets.

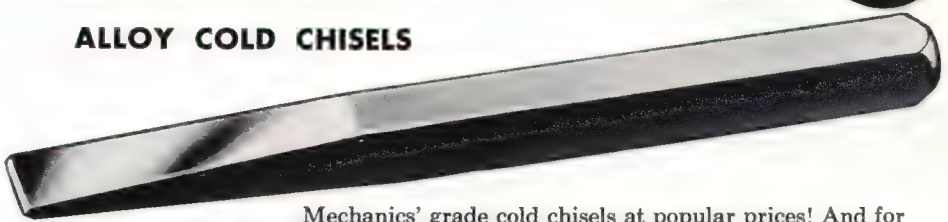
Tool No.	Length	Opening Sizes	Shpg. Wt.	Std. Pkg.
9414	14"	3/4", 3/4", 13/16" & 7/8"	2 1/2 lbs.	12
9416	16"	3/4", 3/4", 13/16" & 7/8"	2 3/4 lbs.	12
9420	20"	3/4", 3/4", 13/16" & 7/8"	3 1/2 lbs.	12

COLD CHISELS & SCREWDRIVERS

ALLOY COLD CHISELS

ALLOY COLD CHISELS

- Cuts bolts, rivets, shafting, steel plate and other metals
- Heavy-duty . . . Precision quality throughout



Tool No.	Length	Sq. Stock	Cut. Edge	Shpg. Wt.	Std. Pkg.
71	5"	1/4"	1/4"	1½ oz.	6
72	5 5/8"	3/16"	3/8"	2½ oz.	6
73	6"	3/8"	1/2"	3½ oz.	6
74	7"	1/2"	5/8"	7 oz.	6
75	7½"	5/8"	3/4"	11½ oz.	6
76	8"	3/4"	7/8"	17½ oz.	6

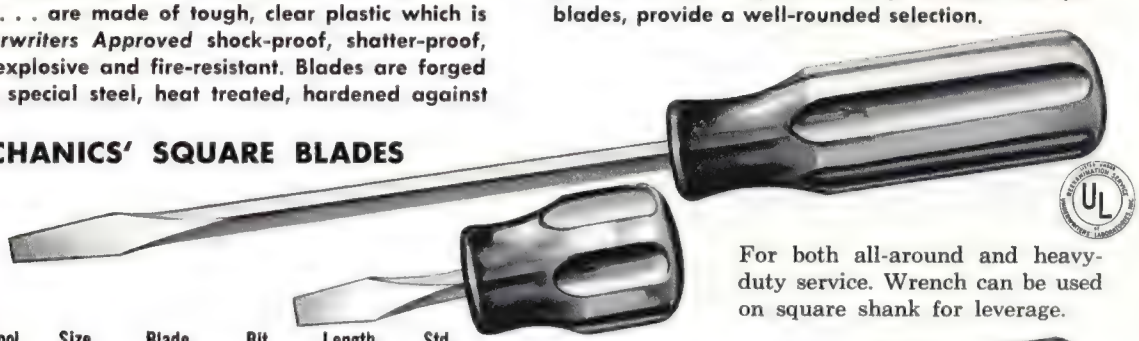
Mechanics' grade cold chisels at popular prices! And for rugged strength under continuous hard usage . . . also for ability to hold cutting edges . . . no better choice can be made. Note these other quality features—alloy bodies hardened and tempered . . . "non-split" chamferred butt ends . . . "firm-grip" square stocks . . . fully chrome plated, satin finish on handles and high polish on cutting ends.

SCREW DRIVERS

PRECISION MADE SCREWDRIVERS

Design, materials and workmanship second to none make these popular-priced screwdrivers outstanding values. Handles are shaped for comfortable and sure grip . . . are made of tough, clear plastic which is *Underwriters Approved* shock-proof, shatter-proof, non-explosive and fire-resistant. Blades are forged from special steel, heat treated, hardened against chipping and rust-resistant plated. Bits are precision ground to accurate fit. The three different style blades in a variety of sizes, plus three Phillips' blades, provide a well-rounded selection.

MECHANICS' SQUARE BLADES



For both all-around and heavy-duty service. Wrench can be used on square shank for leverage.

Tool No.	Size Shank	Blade Length	Bit Width	Length Overall	Std. Pkg.
7341	1/4"	1 1/4"	1/4"	3 3/16"	12
7342	1/4"	4"	1/4"	7 1/4"	12
7343	1/4"	6"	1/4"	9 7/8"	12
7344	15/16"	8"	5/16"	11 7/8"	12

Bit is same width as shank . . . fits into tight places. Especially preferred for electrical work.

CABINET BLADES

Tool No.	Size Shank	Blade Length	Bit Width	Length Overall	Std. Pkg.
7352	1/8"	1 3/8"	1/8"	4"	12
7353	1/8"	3"	1/8"	5 1/8"	12
7354	1/8"	4"	1/8"	6 1/8"	12

ALL-STEEL EXTRA-STRONG TOOL BOXES

- Precision made to Rigid Specifications
- Extra-durable High Gloss Hammerloid Finish
- Compact, Streamlined Rounded Corners
- Popular Priced and Factory Guaranteed

For anyone who uses hand tools, this broad selection of all-steel boxes fills every need . . . from miniature boxes for ¼" drive socket items to a big, roomy chest. Features include all-welded construction . . . rounded corners . . . comfortable, durable handles . . . sturdy hardware fittings . . . and glistening hammerloid automotive finish. Thus no detail has been omitted in making these tool boxes the finest in appearance, convenience and service.

9009

No. 9009

Spark plug and drill utility size. Cover is held firmly closed by spring hasp in center. 22 gauge steel.

Cat. No.	Dimensions	Shpg. Wt.
9009	10" x 4 3/16" x 1½"	1 lb.

Individually cartoned

9008

No. 9008

Heavy duty utility size . . . the roomy depth (2¾") provides space for a number of small tools. Partition divides into handy compartments. Cover closes with two snap catches. 22 gauge steel.

Cat. No.	Dimensions	Shpg. Wt.
9008	15¾" x 4¾" x 2¾"	2 lb. 13 oz.

Individually cartoned

9006

No. 9006

For general utility . . . long and narrow box (17"x 3") which holds larger tools. Cover shuts tightly with friction catch in center. 22 gauge steel.

Cat. No.	Dimensions	Shpg. Wt.
9006	17" x 3" x 2"	1 lb. 13 oz.

Individually cartoned

9004

No. 9004

Medium utility size (17½"x5½") with shallow depth so tools are easily accessible. Partition in back corner for holding smaller tools. Comes with center spring hasp for holding cover closed. 22 gauge steel.

Cat. No.	Dimensions	Shpg. Wt.
9004	17½" x 5½" x 1¼"	1 lb. 11 oz.

Individually cartoned

9007

No. 9007

All-purpose utility size with ample storage room for an average tool set. Partition divides box into compartments. Strap steel metal hanger beneath the cover can be used for holding speeder or other tool. Two snap catches. 22 gauge steel.

Cat. No.	Dimensions	Shpg. Wt.
9007	19" x 7¼" x 2"	4 lb. 8 oz.

Individually cartoned

No. 9014

Compact hip-roof box with sufficient room for long handled tools. Two partition compartment for smaller items. Full-length piano hinge attaches cover to box. Metal carrying handle; two snap catches; also center hasp which can be padlocked, 22 gauge steel.

Cat. No.	Dimensions	Ship. Wt.
9014	18½" x 5¾" x 3⅜" Individually cartoned	3 lbs. 4 oz.

9014

No. 9011

Large hip-roof box which features a handy tote-tray (with partition) for carrying selected tools to job. Cover opens on sturdy full-length piano hinge, also box is reinforced with four corner irons. Metal carrying handle, two snap catches and strong center hasp for padlock. 22 gauge steel.

Cat. No.	Dimensions	Ship. Wt.
9011	19" x 7" x 8¾" Individually cartoned	9 lbs. 5 oz.

9011

No. 9010 *(not illustrated)*

Identical in construction and features to No. 9011 above, but more compact and smaller capacity. 22 gauge steel.

Cat. No.	Dimensions	Ship. Wt.
9010	20" x 6" x 5½" Individually cartoned	6 lbs. 11 oz.

9012

No. 9012

This unique and exceptionally handy hip-roof box features two equal-size covers which overlap in center. Opens and shuts quicker than any other box. Covers remain securely closed when lifted by two metal handles, which can be padlocked together. Full-length piano hinges on each cover, also has 3-compartment tote-tray. Big, roomy, holds lots of tools. 22 gauge steel.

Cat. No.	Dimensions	Ship. Wt.
9012	22" x 8¼" x 7½" Individually cartoned	10 lbs.

No. 9015

Master Mechanics' chest...with the plus features, convenience and extra room the finest craftsmen desire for working with hand tools. In addition to the large tote-tray and top compartment, there are two full-size drawers that pull out with metal handles. Front panel which is attached to cover (see illustration) fits over the drawers when not in use, holding them securely and forming a smooth side. Panel comes with lock which protects entire contents of chest. Two side handles for easy portability. Rugged, handsome, precision-made . . . finished in high gloss hammerloid with de luxe fittings. 22 gauge steel throughout.

Cat. No.	Dimensions	Ship. Wt.
9015	22½" x 10¼" x 10½" Individually cartoned	29 lbs. 4 oz.
